

POWER BOX 5

POWERED SMALL SIZE SPEAKER BOXES FOR INSTALLATIONS

Power Box 5 is a compact pair of loudspeakers consisting of one active unit with a built-in 2×20W stereo amplifier and one passive loudspeaker connected via Phoenix terminal. Each unit features a 5.25" woofer and 1.5" tweeter for balanced audio reproduction. The system includes RCA line input paralleled with a 3.5mm TRS jack, tone control, a stereo/mono switch, and a power indicator. A U-bracket is included for wall mounting. Ideal for small-scale installations such as classrooms, communication hubs, and paging systems.
